

BASIC INFORMATION

Highly motivated and detail-oriented React Frontend Developer with a strong foundation in web development technologies with 2 Years 1 month experience. Eager to contribute technical skills while continuously expanding expertise in building responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and React, Typescript, Tailwind with a passion for creating visually appealing and intuitive user-interfaces. A fast learner with excellent problem-solving abilities and a commitment to staying current with emerging trends in frontend development.

WORK EXPERIENCE

Application Square Infotech Ltd.

React Frontend Developer:

April 2024 to Present

- Developed user-friendly web applications using React.js and modern JavaScript libraries and transformed complex designs into easy-to-use websites.
- Participate in agile development processes, contributing to sprint planning, daily stand-ups, and retrospectives and worked in a team to deliver high-quality software products.
- Implemented state management solutions using Redux and Context API to manage application state effectively and created clean and efficient code to ensure website performance.

DatorTech.

Junior Frontend Developer:

June 2022 to March 2024

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript and assisted in building and updating components in React.js to improve user interfaces.
- Worked closely with senior developers to implement features and fix bugs and used Git for version control to manage and track code changes.
- Participated in daily stand-up meetings and sprint planning sessions.
- Ensured cross-browser compatibility and mobile responsiveness for all web pages and collaborated with the design team to ensure the website's look and feel matched the design specs.
- Worked on personal projects to enhance and upskill my frontend development abilities. ([Github-link](#))

PROJECTS

LOMBAA (React.js, HTML, CSS, JavaScript, VS Studio, Material-UI, Bootstrap):

- Played a key role in the development of "LOMBAA" a web application inspired by OLX, with a focus on user-friendly and responsive design in which user can buy or sell own used products like- Car, Mobile, Electric products etc.
- Created dynamics forms for POST module and Utilized Axios to make HTTP requests to the backend server, allowing users to view and post product listings securely and worked on login sign-in page.

CashKama (React.js, HTML, CSS, JavaScript, VS Studio, Material-UI, Typescript):

[Cash ₹ Kama \(cashkama.com\)](#)

- CashKama is a Cashback & Coupons platform with Cashback offers on like Amazon, Flipkart, Myntra & top sites.
- Developing a CashKama application using React, integrating the CashKama API to fetch cashback offers and store information. Implemented routing with react-router-dom for seamless navigation and used Tailwind CSS for styling.
- This application purpose to provide users with a platform to earn cashback on their online purchases

Simplisia (HTML, Tailwind, JavaScript, React.js, VS Studio, Material-UI, Typescript, Context-API, Git):

[voyatekgroup.com](#)

- Simplisia is a ERP and CRM product in which user can manage or maintain his workspace.
- Implemented a modular architecture with reusable components to maintain consistency and improve development efficiency.
- Using Context API for effective state management across ERP and CRM modules, ensuring data integrity and seamless communication between various parts of the application.
- Worked in an Agile environment, actively participating in sprint planning, daily stand-ups, and retrospectives to deliver incremental improvements

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript.
- **Web Technologies And Tools:** ReactJs, HTML, CSS, Websockets, Git, Tailwind, API-Integration, VS-code, Redux, ES-6, JWT

EDUCATION

Kashi Institute of Technology, Mirzamurad Varanasi

July 2018 to June 2022

Bachelor of Technology - Computer Science & Engineering

OTHERS

React and Redux certificate– KG coding, 2024
